Elon® Solar PV kits
The Most Cost-Effective Solar Water Heating Solution

Brochure:
Elon® Solar PV Kits

Elon® Solar PV Kits

Competitive capital cost, decades long lifetime (20+ years) and little to no maintenance.
The **Elon® is the lowest cost per kWh** of water heating your money can buy anywhere.
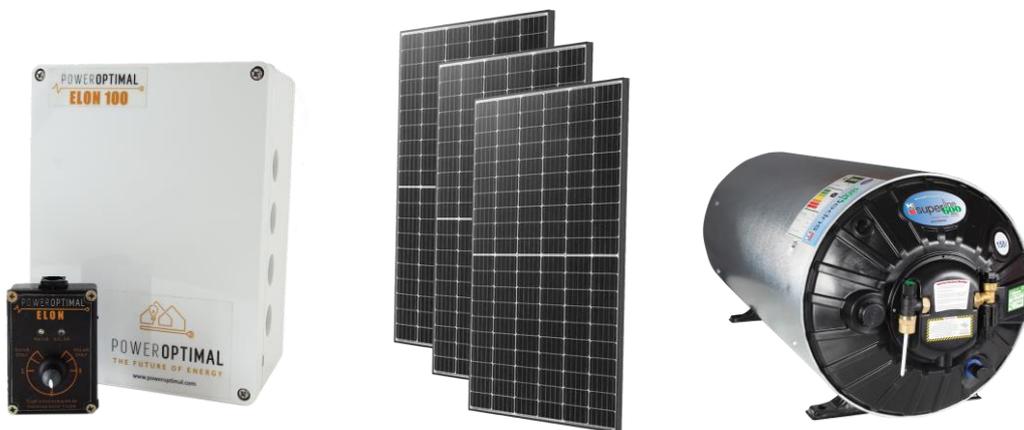

Kits are installation ready and include:

- Elon® unit
- 470W Jinko Solar PV panels (2 or 3)
- Mounting structure
- All other balance of system components.
- Kwikot electric water heater (150L or 200L) optional.

For larger developments kit customisation can be discussed (minimum of 250+ kits) with David Crawley.
